PROFILE

Bachelor of Computer Applications (BCA) student with a strong foundation in programming, database management, and software development. Passionate about learning new technologies and applying theoretical knowledge to real-world projects. Seeking an entry-level opportunity to leverage my skills in coding, problem-solving, and IT support while continuously growing in a dynamic work environment.

PROJECT

Dec 2024-Feb 2025

"Connect Me" Local Community integration System

- Designed and implemented a platform that connects local citizens with nearby shops and essential services, improving local business accessibility
- Integrated an emergency system feature enabling users to contact pre- set emergency contact by pressing the volume button
- Utilized SQL and python to manage and manipulate limited datasets for testing and system performance validation

SKILLS

- Programming language- Python, JAVA, C
- Web Technologies - HTML, JavaScript, CSS
- softskills - Self Learning, Problem solving, Critical Thinking, Time and Resources Management
